Masterclass in Orthognathic Surgery

26-28 July 2023, Johannesburg, South Africa

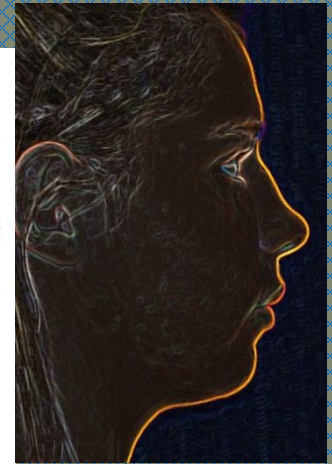

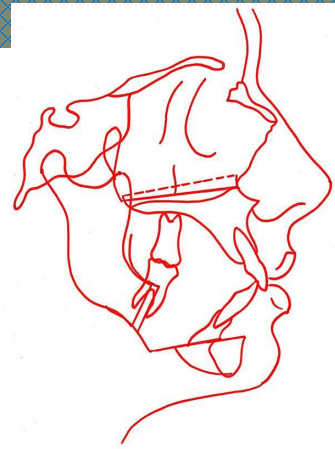

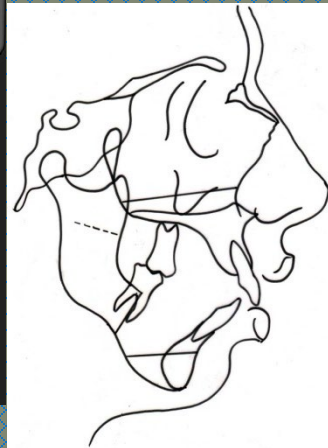

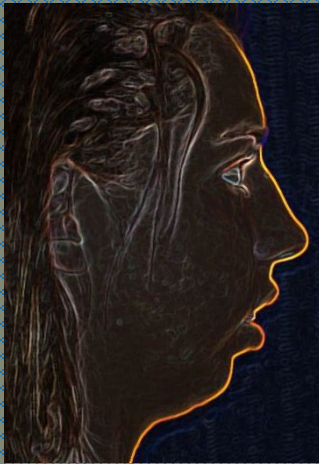

presented by

Carlo Ferretti & Peter Tsakiris

We will be joined by Dr Peter Tsakiris (Wits alumnus now practicing in Australia) who will share his experience with virtual treatment planning

The Masterclass will focus on the diagnosis and treatment planning for patients requesting correction of a dento-skeletal malocclusion. The philosophy that will be taught is eminently practical. Visual treatment planning will be developed in a step-by-step, hands on approach covering multiple scenario's to familiarize candidates with treatment planning principles for all malocclusions. Model surgery and surgical tips will be incorporated into the scenario discussion

In order to provide personalized attention to participants the course will be limited to 20 attendees.
