

PRELIMINARY PROGRAM

Tuesday, October 3, 2023

08:30	Live surgeries : PURE FACIAL PARALYSIS (CFNG and masseter)-innervated Gracilis for simultaneous smile and eye closure	<i>David CC Chuang</i>
	Dual innervation-latissimus dorsi (one stage)	<i>Akihiko Takushma</i>
	One stage mini-gracilis for smile	<i>Paul Julien Guelinckx</i>
	Temporalis lengthening myoplasty for smile	<i>Daniel Labbe</i>
14:00	Lectures: BASIC AND SMILE RECONSTRUCTION	
18:00	GROUP PHOTO	
19:00	BANQUET	

Wednesday, October 4, 2023

08:30	Live surgeries : POST-PARETIC FACIAL SYNKINESIS AND PURE FACIAL PARALYSIS (CFNG or XI)-gracilis for postparetic facial synkinesis	<i>David CC Chuang</i>
	Masseter-gracilis (One stage) with static suspension	<i>Shai Rozen</i>
	Dual vector gracilis flap for upper and lower lips reanimation with masseter nerve neutorization	<i>Nathan Jowett</i>
	Masseter nerve innervated facial reanimation	<i>Tae Suk Oh</i>
14:00	Lectures	
19:00	QUESTIONS AND ANSWERS	

Thursday, October 5, 2023

08:30	Live surgeries : OTHERS OPTIONS FOR TREATMENT CFNG-gracilis for eye closure	<i>David CC Chuang</i>
	CFNG-platysma for eye closure	<i>Paul Julien Guelinckx</i>
	Triple innervation surgery	<i>Federico Biglioli</i>
	Lower lip reanimation	<i>Kallirroi Tzafetta</i>
13:00	Lectures	

IMPORTANT DATES

- Early Bird Registration, Before July 1, 2023
- On-site Registration, After Sept. 1, 2023

Registration Fee

	1 st Early Bird Before July 1 st 2023	2 nd Early Bird Before Sept 1 st 2023	After Sept. 1 st 2023 and On Site
Physician in general	US\$1,200 NT\$42,000	US\$1,300 NT\$45,500	US\$1,400 NT\$49,000
Member of the Taiwan Society (Neurologist, Neurosurgeon, Ophthalmologist, ENT, Head and Neck, Rehabilitation, Aesthetics Craniofacial, Maxillofacial)	US\$960 NT\$33,600	US\$1,040 NT\$36,400	US\$1,120 NT\$39,200
Member of TSPS, APFSRM	US\$720 NT\$25,200	US\$780 NT\$27,300	US\$840 NT\$29,400
Member of TSRM	US\$600 NT\$21,000	US\$650 NT\$22,750	US\$700 NT\$24,500
Fellow & Resident	US\$600 NT\$21,000	US\$650 NT\$22,750	US\$700 NT\$24,500
Rehabilitation therapists, medical student, nurse and others	US\$360 NT\$12,600	US\$390 NT\$13,650	US\$420 NT\$14,700
Accompanying person	US\$120 NT\$4,200	US\$130 NT\$4,550	US\$140 NT\$4,900

The registration fee will be charged by New Taiwan Dollars (exchange rate USD\$ = 35NTD\$)

WELCOME MESSAGE

There are two major dysfunctions in facial paralysis: Pure Facial Paralysis which affects not only smile but also eye closure and Postparalytic Facial Synkinesis which affects not only facial asymmetry but also synkinesis problems. Both constitute great challenges to reconstructive surgeons around the world. In 2011, we hosted "The 1st International Instructional Course for Facial Paralysis Reconstruction" at Chang Gung Memorial Hospital in Linkou, Taiwan. We invited international well-known faculty to performed 8 live surgeries demonstrating the most up-to-date techniques, including nerve reconstruction and functioning free muscle transplantation. Numerous educational lectures were arranged, including advances in surgical techniques, controversial issues, and current trends. Interactive "Q & A" between participants and faculty also gave our members an exclusive opportunity to ask questions and express their opinions, It had been tremendously successful and extremely educational for all attendees.

Because of this great experience, we encourage ourselves to continuously host the 2nd Facial Paralysis Reconstruction Course. The date was originally set in April 2020 (ten years after the first Course). However, it was unfortunately canceled due to the COVID-19 pandemic. While the pandemic is under control now, the desire to learn and share our knowledge has never stopped. We are eager to arrange the 2nd course that many of our friends and colleagues are looking forward to.

To update with current trends in facial paralysis reconstruction we will include smile, lagophthalmos, synkinesis, regional muscle and free muscle transfer et cetera reconstructions in the 2nd course. We have invited 11 international and 7 domestic faculty to perform more than 10 live surgeries in the morning through four separate operating rooms with live broadcast. Multiple afternoon lectures (basic and clinical) are following in the afternoon. A stimulating "Q&A" session will be scheduled in one nighttime. It is a 3-day meeting.

We cordially invite you and your colleagues to Chang Gung Memorial Hospital to participate in the unique course. It is a rare opportunity to meet and learn from leading experts in the world in facial reanimation. We are very much looking forward to seeing you all in the meeting in Taiwan.
