

Dear Colleagues,

It is our great pleasure, to invite you to participate in the hands on course on craniofacial surgery held from September 27th to 28th 2019. It is intended as follow-up course to the hands on course held in Innsbruck in 2015 by Professor Cassisi and Professor Rasse. This time the main topic are advanced osteotomies of the facial skeleton like the LeFort III osteotomy or box osteotomies.

The morning sessions will cover the theory behind the complex midfacial osteotomies. In the afternoon sessions approaches to facial skeleton and the osteotomies can be practiced on fresh frozen cadavers.

We are looking forward to welcoming you to the course.

Prof. Dr. Antonino Cassisi

Department of Oral and Maxillofacial Surgery,
Papa Giovanni XXIII di Bergamo, Italy

Prof. Dr. Dr. Alexander Gaggl

Department of Oral and Maxillofacial Surgery,

Programme Friday 27.09.2019

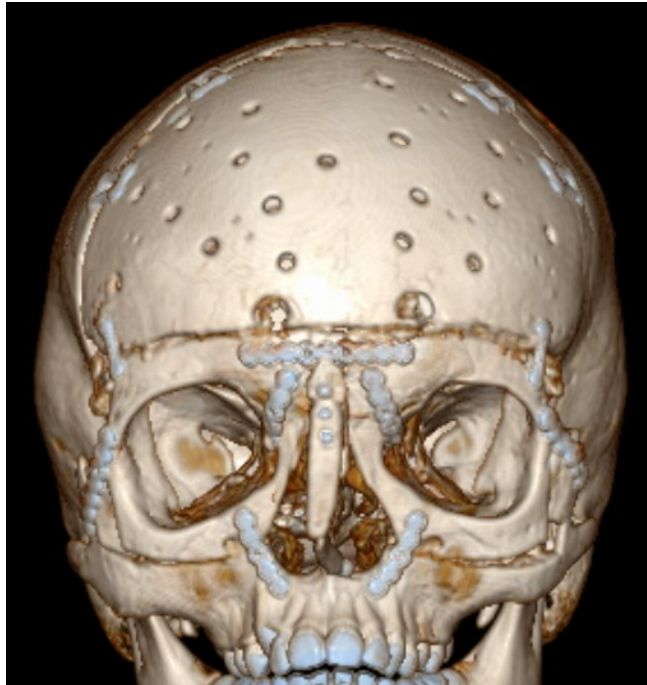

8:00 Registration

Theoretical session:

9:00 Nonsyndromic and syndromic
craniosynostosis
9:30 Functional aspects in syndromic patients
10:15 Coffee break
10:45 Craniotomy, Fronto-orbital advancement
11:15 LeFort III osteotomy - surgical principles
12:00 Lunch break

Demonstration and cadaver session:

13:00 - 17:30
Coronal approach
Fronto-orbital advancement
Orbital and intraoral approach
LeFort III osteotomy
19:00 Course dinner

Programme Saturday 28.09.2019

Theoretical session:

9:00 RED Distractor
9:30 Monoblock advancement, facial
bipartition - surgical principles
10:00 Canthal fixation
10:15 Coffee break
10:45 Calvarial transplants
11:30 Box osteotomy - surgical principles
12:00 Lunch break

Demonstration and cadaver session:

13:00 - 17:00
RED distractor
Bone transplants
Osteosynthesis
Orbital osteotomies
Canthal fixation
